

Scene 1: Portrait and skin tones

MIT-Adobe FiveK Dataset • Canon EOS-1D Mark II • People / Indoor Portrait • Canvas Color Evaluation

reMarkable Paper Pro (2160 x 1620 @ 229 PPI)

Original sRGB

Compensated RMPP

Direct sRGB input: subject to pigment desaturation and shadow crush on Canvas Color.

Pipeline calibrated: Warm tone protection prevents unnatural red/orange shift on faces

Scene 2: Deep shadow and low-light exposure

MIT-Adobe FiveK Dataset • Night Architecture • Low-Light Contrast • Canvas Color Evaluation

reMarkable Paper Pro (2160 x 1620 @ 229 PPI)

Original sRGB

Compensated RMPP

Direct sRGB input: subject to pigment desaturation and shadow crush on Canvas Color.

Pipeline calibrated: Monotonic Hermite de-crush recovers dark shadow details above $Y=0.18$ floor

Scene 3: Cool landscape and blue sky

MIT-Adobe FiveK Dataset • Leica M8 • Sun & Sky Landscape • Canvas Color Evaluation

reMarkable Paper Pro (2160 x 1620 @ 229 PPI)

Original sRGB

Compensated RMPP

Direct sRGB input: subject to pigment desaturation and shadow crush on Canvas Color.

Pipeline calibrated: Cool-tone luminance lift brightens skies and water without hue clipping

Scene 4: Vibrant flora and high-gamut pigments

MIT-Adobe FiveK Dataset • High-Saturation Macro • Floral Pigments • Canvas Color Evaluation

reMarkable Paper Pro (2160 x 1620 @ 229 PPI)

Direct sRGB input: subject to pigment desaturation and shadow crush on Canvas Color.

Pipeline calibrated: OKLab gamut mapping preserves high-saturation yellow, orange and magenta pigments without clipping.

Scene 5: Fine nature texture and foliage

MIT-Adobe FiveK Dataset • Canon EOS-1D Mark II • Intricate Green Foliage & Animals • Canvas Color Evaluation

reMarkable Paper Pro (2160 x 1620 @ 229 PPI)

Original sRGB

Compensated RMPP
